"PLAN TO MAKE AMERICA BEAUTIFUL"

## THE STORY OF YOUR CHRISTMAS TREE

Trees are the kings of the plant kingdom. Your tree is related to the biggest, tallest, and the oldest living things on earth. As kings of the plant kingdom, what could be more suitable than using trees to celebrate the birth of the King of kings, a symbol of hope, of peace on earth good will toward all men. As long as the tree lives the tree plans ahead for new life. This also is like the spirit of Christians everywhere.

Christmas trees pay from one to two thousand dollars per acre. When planted 4½ ft. apart 2000, and 6½ ft 1000 per acre. The demand for Evergreen boughs and Christmas trees is increasing each year. A few years ago we were cutting 30 million trees, this has increased to about 45 million trees at present.

"IDLE ACRES" can give you a cash crop of over \$1,000.00 per acre in about 10 years. Why not plan now to build a bank deposit. A few thousand dollars will mean future security for you and your family.

Care of seedlings—Remove from crate, dip roots in thick mud, cover with dirt in shallow trench. You can plant your tree when convenient without loss.

\* \* \*

**OUR PRICES ARE FROM 30% TO 50% LOWER  
THAN MANY OTHERS**

### List No. 1:

#### CHRISTMAS AND ORNAMENTAL TREE SPECIES

<b>AMERICAN RED OR NORWAY PINE</b>	Per 100	Per 1000

Pine, 2-yr., 1-2 in. 300 trees \$5.00.

---

We thank our friends and customers for the  
orders that keep rolling in. There is a sharp de-  
mand for stock to be delivered in the 1959  
season. Please place your order as early as pos-  
sible, last spring we had to return several orders  
because we had no stock to meet some of the  
late orders. We believe that all small evergreens,  
etc., should be planted during the spring season,  
too many losses in the fall; therefore, we only  
send out a spring list, no list in the fall season.

**STOP AT THE SIGN TREE FARMING**  
750 Riverside Drive, Johnson City, New York
